

# Pearl Powder

## ***Why Oriental women seem to have an ageless appearance? Smoother, Softer More Beautiful Skin?***

For thousands of years, the smooth, clear skin of Chinese Empresses has been admired by women all over the world. Now for the secret has been revealed - pearl powder.

Pearls are believed to have an amazing effect on the skin, as Chinese empresses discovered when they used pearl powder on their faces 4,000 years ago. The secret pearl powder formula was passed on from generation to generation by the doctors who treated the women of the Emperor's court. Only in the pearl does a unique combination of natural substances and minerals exist which when applied topically keep the skin smooth, soft and supple. Research in China has proved that pearls have a beneficial effect on the skin.

Pearl powder prevent pigmentation by slowing down the development of melanin which controls the color pigments of the skin. Pearl powder keeps the skin clear and smooth, leaving it with a sheer, radiant glow. Pearl powder filters the sun's rays - Chinese experts claim that pearls can correct the damage done to the skin by the sun. Pearl powder contains 20-22 amino acids which are the building blocks of every living organism. Pearl powder contains a natural moisturizer. Pearl powder contains proteins which renew the skin cells, vitamin B complex and Polysaccharides which strengthen the muscles and the metabolism. Pearl Powder can also be ingested as a source of calcium and often natural ingredients.

## ***In traditional Chinese medicine Pearl Powder is taken internally and applied topically.***

Used internally, Pearl Powder is believed to to: Detoxify the system; Clean and clear the skin; Remove age and liver spots on the skin; Give the skin a younger appearance; Adjust the body energy; Calm the liver; Relieve stress from the mind; Treat sore throat; Adjust the nerve system; Regulate the metabolism; Improve eyesight; Treat insomnia; and Energize the body.

When used topically, 100% pure pearls crushed into Pearl Powder are famous for keeping skin smooth, soft, and lustrous looking; it is also used in treatment of open sores burns, and cuts; as well as homeopathic cure for fever. (these claims are not approved by the FDA; however according to Traditional Chinese medicine above are the symptoms pearl powder is used to treat).
